Learning Points

Plural Sounds

Let's compare sounds!

A vibration is a movement you can feel.

When you say /s/ at the end of the word, there is no vibration. These are called unvoiced sounds because the plural and verb form "s" is NOT voiced (no vibration).

Example: *maps, caps, walks*

When you say /z/ at the end of the word, there is a vibration. These are called voiced sounds because the plural and verb form "s" is voiced (vibration).

Example: *plans, meals, goes*

When you say the /ɪz/ sound at the end of the word, there is a vibration. These sounds make the plural and verb form "s" to be pronounced with an extra syllable.

Example: *buses, races, washes*

Vibration	Example
Unvoiced (no)	cats, parts, he talks
Voiced (yes)	bells, jars, she goes
Voiced (yes)	watches, bridges, he watches
